Designer Overlay Finishes

DakotaCrete offers a new alternative for high end looking designer countertop, flooring and concrete overlays. Our cement based products provide an unlimited choice of colors and finish textures that can simulate granite, marble, slate, quartz, flag stone, river rock, tile or brick pavers and any other natural stone or even wood without the high cost and limitations.

Let us help you bring your spaces to a whole new level of color and design.

Call now for a no obligation estimate.

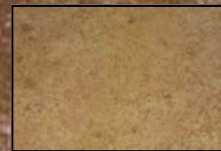

701-391-7728

Concrete overlay countertops can usually be installed directly over existing countertop surfaces without the need for demolition. This system is extremely durable and comes with a 10-year limited warranty. Every countertop or floor is custom designed to create a unique one-of-a-kind look. Custom design also means the ability to match almost any color or texture to suit your design goals. Indoors or outdoors, concrete designer overlay finishes by DakotaCrete will provide long lasting fabulous looking surfaces for your home or business.
